

# OpcClientApplication<T> Members

**Namespace:** Opc.UaFx.Client

**Assemblies:** Opc.UaFx.Advanced.dll, Opc.UaFx.Advanced.dll

The [OpcClientApplication<T>](#) type exposes the following members.

## Constructors

### OpcClientApplication()

**C#**

```
public OpcClientApplication()
```

#### Exceptions

[InvalidOperationException](#)

### OpcClientApplication(T)

**C#**

```
public OpcClientApplication(T client)
```

#### Parameters

**client** T

#### Exceptions

[ArgumentNullException](#)

[InvalidOperationException](#)

## Properties

# Client

C#

```
public T Client { get; }
```

## Property Value

T

# Configuration

C#

```
public override OpcApplicationConfiguration Configuration { get; }
```

## Property Value

OpcApplicationConfiguration

# Methods

## ExitCore()

C#

```
protected override void ExitCore()
```

## LoadConfigurationCore(String)

C#

```
protected override void LoadConfigurationCore(string configSectionName)
```

## Parameters

configSectionName String

## RunCore()

C#

```
protected override int RunCore()
```

## Returns

[Int32](#)

## Exceptions

[InvalidOperationException](#)
