

OpcClientServices Members

Namespace: Opc.UaFx.Client

Assemblies: Opc.UaFx.Advanced.dll, Opc.UaFx.Advanced.dll

The [OpcClientServices](#) type exposes the following members.

Properties

Browse

Gets the [IOpcService`2](#) instance which implements the [IOpcBrowseService](#) interface used to browse nodes.

C#

```
[CLSCompliant(false)]  
public IOpcBrowseService Browse { get; }
```

Property Value

[IOpcBrowseService](#)

An instance which implements the [IOpcBrowseService](#) interface.

ReadNodes

Gets the [IOpcService`2](#) instance which implements the [IOpcReadNodesService](#) interface used to read node data.

C#

```
[CLSCompliant(false)]  
public IOpcReadNodesService ReadNodes { get; }
```

Property Value

[IOpcReadNodesService](#)

An instance which implements the [IOpcReadNodesService](#) interface.

ReadNodesHistory

Gets the [IOpcService`2](#) instance which implements the [IOpcReadNodesHistoryService](#) interface used to read node historical data.

C#

```
[CLSCompliant(false)]  
public IOpcReadNodesHistoryService ReadNodesHistory { get; }
```

Property Value

[IOpcReadNodesHistoryService](#)

An instance which implements the [IOpcReadNodesHistoryService](#) interface.

WriteNodes

Gets the [IOpcService`2](#) instance which implements the [IOpcWriteNodesService](#) interface used to write node data.

C#

```
[CLSCompliant(false)]  
public IOpcWriteNodesService WriteNodes { get; }
```

Property Value

[IOpcWriteNodesService](#)

An instance which implements the [IOpcWriteNodesService](#) interface.
