

OpcAttributeWriteAccess Enum

Namespace: Opc.UaFx

Assemblies: Opc.UaFx.Advanced.dll

Defines which attributes are writable.

C#

```
[Flags]  
public enum OpcAttributeWriteAccess : uint
```

Inheritance [Object](#) > [ValueType](#) > [Enum](#) > OpcAttributeWriteAccess

Attributes [FlagsAttribute](#)

Fields

Name	Value	Description
None	0U	None of the attributes offered are writable.
AccessLevel	1U	The AccessLevel is writable.
ArrayDimensions	2U	The ArrayDimensions is writable.
BrowseName	4U	The BrowseName is writable.
ContainsNoLoops	8U	The ContainsNoLoops is writable.
DataType	16U	The DataType is writable.
Description	32U	The Description is writable.
DisplayName	64U	The DisplayName is writable.
EventNotifier	128U	The EventNotifier is writable.
Executable	256U	The Executable is writable.
IsHistorizing	512U	The IsHistorizing is writable.
InverseName	1024U	The InverseName is writable.
IsAbstract	2048U	The IsAbstract is writable.
MinimumSamplingInterval	4096U	The MinimumSamplingInterval is writable.
NodeCategory	8192U	The NodeCategory is writable.
NodeId	16384U	The NodeId is writable.
Symmetric	32768U	The Symmetric is writable.
UserAccessLevel	65536U	The UserAccessLevel is writable.
UserExecutable	131072U	The UserExecutable is writable.
UserWriteAccess	262144U	The UserWriteAccess is writable.
ValueRank	524288U	The ValueRank is writable.
WriteAccess	1048576U	The WriteAccess is writable.
ValueForVariableType	2097152U	The Value is writable.
