

OpcCertificateQueryInstanceEventHandler Delegate

Namespace: Opc.UaFx

Assemblies: Opc.UaFx.Advanced.dll

Represents the method that will handle [QueryInstance](#) events.

C#

```
public delegate void OpcCertificateQueryInstanceEventHandler(object sender,
OpcCertificateQueryInstanceEventArgs e);
```

Parameters

sender [Object](#)

The source of the event (typically a null reference (Nothing in Visual Basic)).

e [OpcCertificateQueryInstanceEventArgs](#)

An instance of the [OpcCertificateQueryInstanceEventArgs](#) class containing the event data.
