

OpcEndpointConfiguration Members

Namespace: Opc.UaFx

Assemblies: Opc.UaFx.Advanced.dll, Opc.UaFx.Advanced.dll

The [OpcEndpointConfiguration](#) type exposes the following members.

Constructors

OpcEndpointConfiguration()

C#

```
public OpcEndpointConfiguration()
```

Properties

ChannelLifetime

C#

```
public int ChannelLifetime { get; set; }
```

Property Value

[Int32](#)

MaxArrayLength

C#

```
public int MaxArrayLength { get; set; }
```

Property Value

[Int32](#)

MaxBufferSize

C#

```
public int MaxBufferSize { get; set; }
```

Property Value

Int32

MaxByteStringLength

C#

```
public int MaxByteStringLength { get; set; }
```

Property Value

Int32

MaxMessageSize

C#

```
public int MaxMessageSize { get; set; }
```

Property Value

Int32

MaxStringLength

C#

```
public int MaxStringLength { get; set; }
```

Property Value

Int32

OperationTimeout

C#

```
public int OperationTimeout { get; set; }
```

Property Value

Int32

SecurityTokenLifetime

C#

```
public int SecurityTokenLifetime { get; set; }
```

Property Value

Int32

UseBinaryEncoding

C#

```
public bool UseBinaryEncoding { get; set; }
```

Property Value

Boolean

Methods

From(OpcApplicationConfiguration)

C#

```
[CLSCompliant(false)]  
public static OpcEndpointConfiguration From(OpcApplicationConfiguration configuration)
```

Parameters

configuration OpcApplicationConfiguration

Returns

OpcEndpointConfiguration

Exceptions

ArgumentNullException
