

OpcNonExclusiveDeviationAlarm Members

Namespace: Opc.UaFx

Assemblies: Opc.UaFx.Advanced.dll, Opc.UaFx.Advanced.dll

The [OpcNonExclusiveDeviationAlarm](#) type exposes the following members.

Constructors

OpcNonExclusiveDeviationAlarm(IOpcReadOnlyNodeDataStore)

Initializes a new instance of the [OpcNonExclusiveDeviationAlarm](#) class using the `dataStore` specified.

C#

```
public OpcNonExclusiveDeviationAlarm(IOpcReadOnlyNodeDataStore dataStore)
```

Parameters

`dataStore` [IOpcReadOnlyNodeDataStore](#)

The [IOpcReadOnlyNodeDataStore](#) of the 'Opc.UaFx.OpcNonExclusiveDeviationAlarmNode' to represent.

Exceptions

[ArgumentNullException](#)

The `dataStore` is a null reference (Nothing in Visual Basic).

Properties

SetpointNodeId

Gets the node identifier of the set point used in the deviation calculation.

C#

```
public OpcNodeId SetpointNodeId { get; }
```

Property Value

[OpcNodeId](#)

An instance of the [OpcNodeId](#) if the variable is in the address space; otherwise [Null](#). For more information see 'Opc.UaFx.OpcNonExclusiveDeviationAlarmNode.SetpointNodeId'.
