

OpcResultCollection<TItem, TItemContent, TItemContentList> Class

Namespace: Opc.UaFx

Assemblies: Opc.UaFx.Advanced.dll

Provides an abstract generic specialisation of the [OpcCollection`3](#) which further restricts the type parameters to define a base for [OpcResult](#) types.

C#

```
public abstract class OpcResultCollection<TItem, TItemContent, TItemContentList> :  
    OpcCollection<TItem, TItemContent, TItemContentList>, IList<TItem>, ICollection<TItem>,  
    IList, ICollection, IReadOnlyList<TItem>, IReadOnlyCollection<TItem>, IEnumerable<TItem>,  
    IEnumerable, IList<TItemContent>, new()
```

Inheritance [Object](#) > [Collection<m>](#) > [OpcCollection<m, t, t>](#) > [OpcResultCollection<TItem, TItemContent, TItemContentList>](#)

Derived

- [OpcAddNodeResultCollection](#)
- [OpcResultCollection](#)
- [OpcTranslatePathResultCollection](#)

Implements [IList<m>](#), [ICollection<m>](#), [IList](#), [ICollection](#), [IReadOnlyList<m>](#), [IReadOnlyCollection<m>](#), [IEnumerable<m>](#), [IEnumerable](#)

Constructors

Name	Description
OpcResultCollection`3	Initializes a new instance of the OpcResultCollection`3 class.
OpcResultCollection`3(IList)	Initializes a new instance of the OpcResultCollection`3 class as a wrapper for the specified list .
